

COMMITTED TO EXCELLENCE

DATE: September 27, 2007

TO: Ruth Eidenier, Principal

SUBJECT: Camey ES – IAQ – Tile Abatement and carpet removal for Room E-2

After Tracy Humber and I investigated the room further on Friday 9/21, EFI recommends that the carpet be removed and replaced with VCT.

I have met with Larry Worley and David Treadway. The tile in front of the sink will have to be Abated, because it has mastic with Asbestos. With Abatement and VCT installment, we expect it to be finished by Monday 11/2. We will keep you informed on the exact dates of the abatement and the VCT installment.

If you have any questions, please call me.

Thanks,

Paul
