SUBJECT: Liberty ES - IAQ - Air Test for Room 428

Carolyn Mutschler from the SRC (W.O. #79103), contacted me in regards to the water leaks and wet carpet in Room 428, of the new wing. This morning, I investigated the room and have requested EFI to do an Air Test. We should have the test results back by Monday 12/3. I also requested Maintenance to put fans in the room to dry the carpet. If you have any questions, please call me.

Thanks,
Paul
